```
Vertices possible combination for return type of a method:

* 8.6 we have, whele we define a method in prex, short type or complete

* 8.6 we have, whele we define a method in prex, short type or complete

* 8.6 a method return type, one have following spitters;

1.0 forming define type or not form type

2.1 Shortwell which type clears to get enforce type

2.2 Shortwell which type clears to get enforce type.
